Reading comprehension Exercises

(UF–RN) Responda, em Português, às questões 1 e 2 de acordo com o texto abaixo:

Globalization – and now?

Enthusiasm for the prophecies of the neo liberal discourse has clearly subsided. After a decade of market economy, the promises of turbo-capitalism find themselves face-to-face with very sobering results. The mood is similar to that after a goldrush: a few winners, too many losers. Globalization sent word of the age of business interests out into the world and accelerate to an astounding rate the speed at which goods and capital circulate. In many countries this has delivered democracy and pluralism. Yet which rules apply in this highly complex global society? So far, nobody has formulated any feasible answers. Instead of bringing so-called Third World countries to a level where they are ready to compete economically in the world market, the system has converted them into industrial havens of cheap labor, including child labor.
