# ESCOLA SEM MUROS: EM CASA TAMBÉM SE APRENDE

Língua Inglesa

# Dear student

This compilation of exercises was organized to help you keep practicing English. See this material as an opportunity to test both your grammar and reading comprehension knowledge. You can find great online resources that may clarify possible doubts you might have by doing the following activities. See the first English material “Escola Sem Muros: Em Casa Também se Aprende” available on <http://www.taubate.sp.gov.br/secretarias/lingua-inglesa/>

Hope you are safe and well,

Teacher Nicolás

## **Dumb Blonde Stereotype Is Wrong: Study Finds No Link Between Hair Color And Intelligence**

Contrary to one of the world's long-standing jokes and stereotypes, blondes are not dumb, a new study found. Researchers found that the IQ scores of naturally blonde men and women are just the same as the brunettes', redheads' and people with other natural hair color.

In fact, naturally blonde women had a 'slightly higher' average IQ score of 103.2 compared to women with natural brown hair who scored 102.7. On the other hand, redheads had an average IQ score of 101.2 while women with natural black hair scored 100.5. But hold your horses, blonde cheerleaders; the researchers said the slight difference was not statistically substantial.

# Reading comprehension Exercises

Study author and research scientist Jay Zagorsky from the Ohio State University said that while 'blonde jokes' are quite harmless, the stereotyping can lead to serious consequences when it comes to hiring, social experiences and even work promotions.

1. Piadas sobre louras são conhecidas em vários países, mas não têm fundamentação científica. De acordo com o texto, pode-se dizer que

- A** os resultados do estudo não foram substanciais por limitações estatísticas.
- B** o estudo investigou a relação entre a cor natural do cabelo e a inteligência.
- C** o estereótipo de que as louras são burras não tem impacto no mercado de trabalho.
- D** as piadas sobre louras provocam graves consequências sociais na visão do pesquisador.
- E** os resultados do estudo comprovam que as louras são significativamente mais inteligentes que as morenas e ruivas.
